## Our mission

ORCID's mission is to **enable transparent and trustworthy connections** between **researchers**, their **contributions**, and their **affiliations** by providing a **unique, persistent identifier** for **individuals** to use as they engage in **research, scholarship, and innovation activities**.

# A Few ORCID Facts

- Independent not-for-profit open to participation by all
- Registry launched in 2012
- Sustained by fees from our member organizations
- Guided by our [values and founding principles](#)
- Community-governed by a Board of Directors representative of our membership

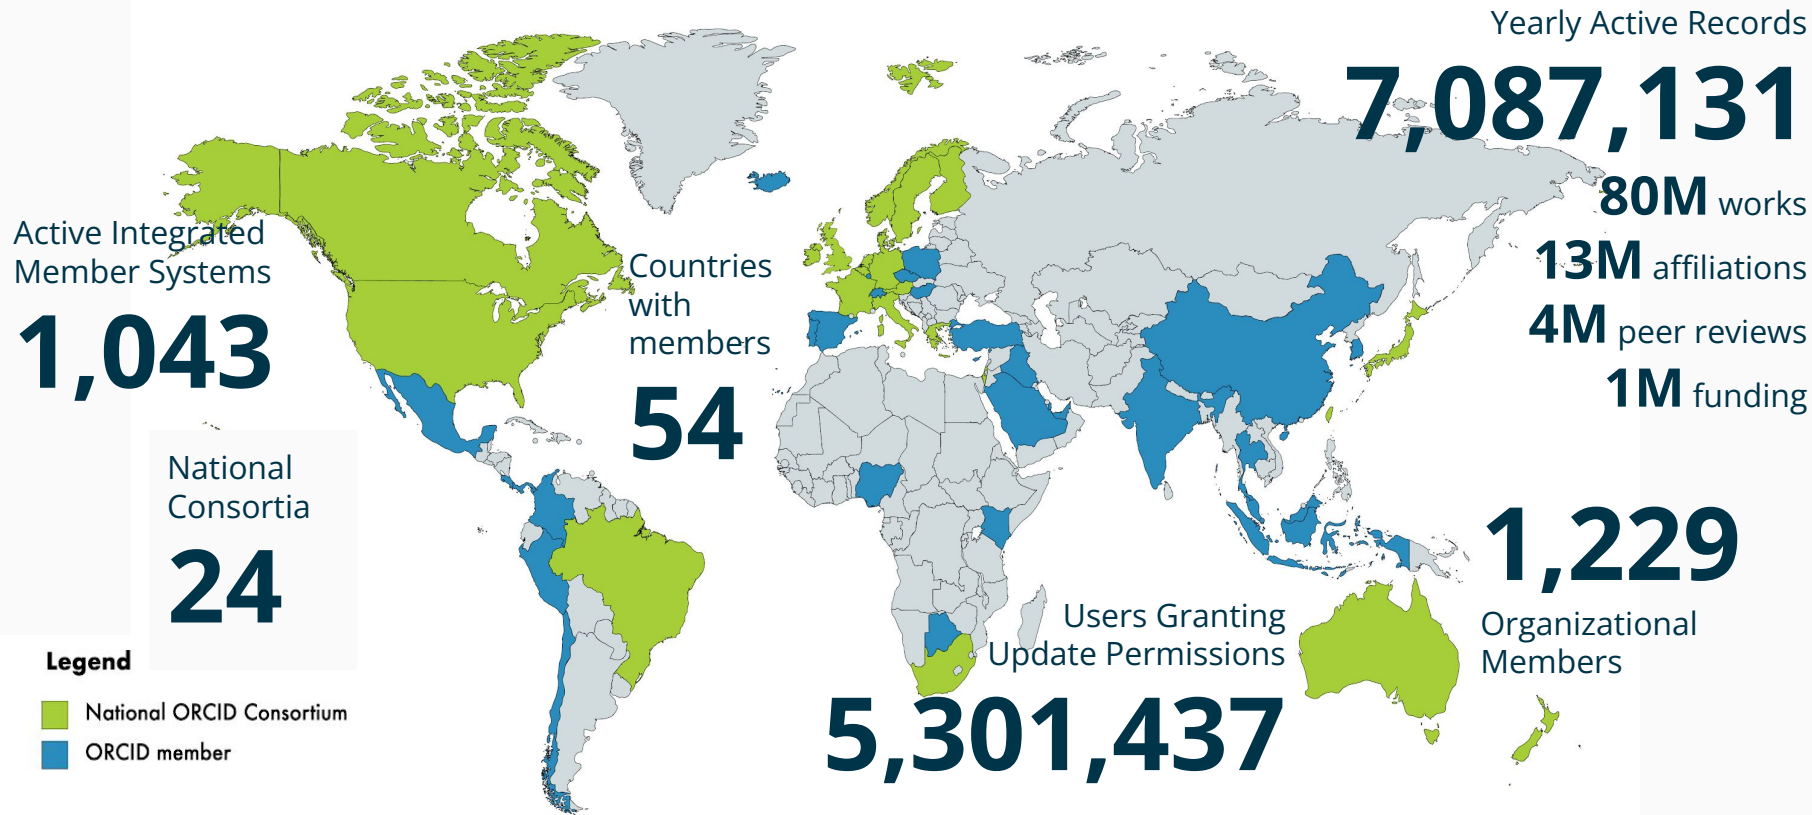

# ORCID provides open infrastructure

- **Persistent identifiers (PIDs)** for researchers connected to a record of (affiliations, works, funding, and more) metadata
- A Registry / **Hub** to synchronize metadata
- **APIs** for connecting researchers with other identifiers for their contributions and activities
- A global **community effort** to build/share connections and tools

# We have reached a critical mass of global participation

# Privacy and consent

By default, what visibility should be given to new items added to your ORCID Record?

- ☒  **Everyone** (87% of users choose this)
- ☐  **Trusted Organizations** (5% of users choose this)
- ☐  **Only me** (8% of users choose this)

## Download the public data file

Visit the below links to download the annual public data file.

(Not You) 

**Deutsche Nationalbibliothek (DNB)**   
has asked for the following access to your ORCID Record

Read your information with visibility set to Trusted Parties   
Add/update other information about you (country, keywords, etc.)  
Add/update your research activities (works, affiliations, etc)

This application will not be able to see your ORCID password or any other information in your ORCID record with visibility set to Only me. You can manage permission granted to this and other Trusted Organizations in your account settings.

# INTEROPERABILITY

ENTER ONCE  
REUSE OFTEN

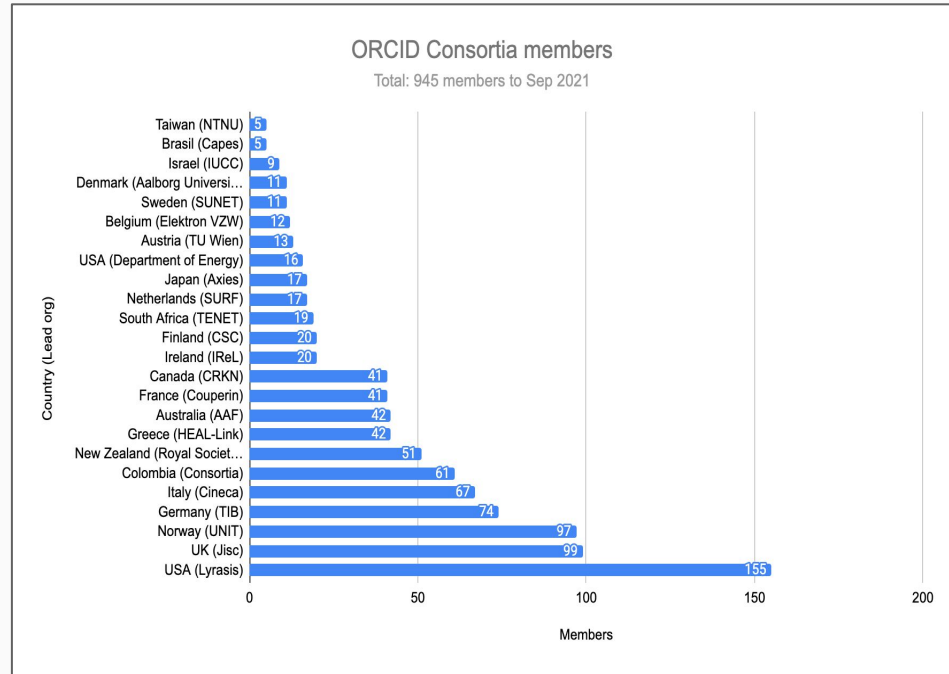

# ORCID in the Czech Republic

- 47,505 iDs (.cz)
- 44,494 Czech affiliations
- Registry available in Czech since 2017
- 7 institutional members
- 6 integrations
- 16489 works with CZ country code

# ORCID Consortia Program

- Consortia program established in 2014 to foster ORCID adoption via CoPs
- Group of 5+ non profit organizations
- National coordination and support provided by a lead organization
- 24 consortia with 945 members
- 739 Member API integrations
- 2 Consortia workshops
- Consortia Interest Group

# Consortium membership benefits

- Local coordination and support
- Discount in membership fees
- 5 Member API Keys
- Synchronize data (webhooks)
- Member portal - On demand reports
- Member portal - Affiliation manager
- Participation in a global community
- Influence in ORCID tech development and governance

# Recommendations to get started

## Consortium

- Identify Lead org
- Determine how the consortium will be funded
- Identify support model and cost recovery model for consortium staff
- Draft policy for consortium, outlining goals of the consortium, membership criteria, governance principles, and how progress will be monitored
- Put out a call for participation in the consortium
- Determine whether implementation approach
- Develop a web page with information about the consortium lead, support contact, and basic information about ORCID best practices

## ORCID

- Answer consortium questions
- Support discussions about consortium
- Provide introductions to other CLs
- Provide basic training to CL staff
- Onboard members in Member Portal
- Promote launch

# Consortia use cases: Italy

- Established in 2015, led by Cineca
- Goal: to improve the handling and availability of data for the Italian national research evaluation exercise
- After a successful implementation pilot, Cineca build the Italian National ORCID HUB/IRIS (Dspace-CRIS)
- The tool allows researchers to connect their iDs and consortium members to import works and push affiliation and works data to ORCID records

Connected iDs	Members	Integrations
91,696	67	69
Integrations performing updates	Records updated	
38	4,343	

Italian National ORCID Hub

## Organizational Life Cycle Assessment (OLCA): Methodological Issues and Case Studies in the Beverage-Packaging Sector

# Consortia use cases: France

- Established in 2019, led by Couperin - Abes
- Goal: to increase French participation in the European and international open science landscape (1st National Plan for Open Science)
- HAL (open repo) Integration: enables researchers to connect their iDs and populate their ORCID records with works metadata

Connected iDs	Members	Integrations
29,168	41	8
Integrations performing updates	Records updated	
5	8,765

# Consortia use cases: UK

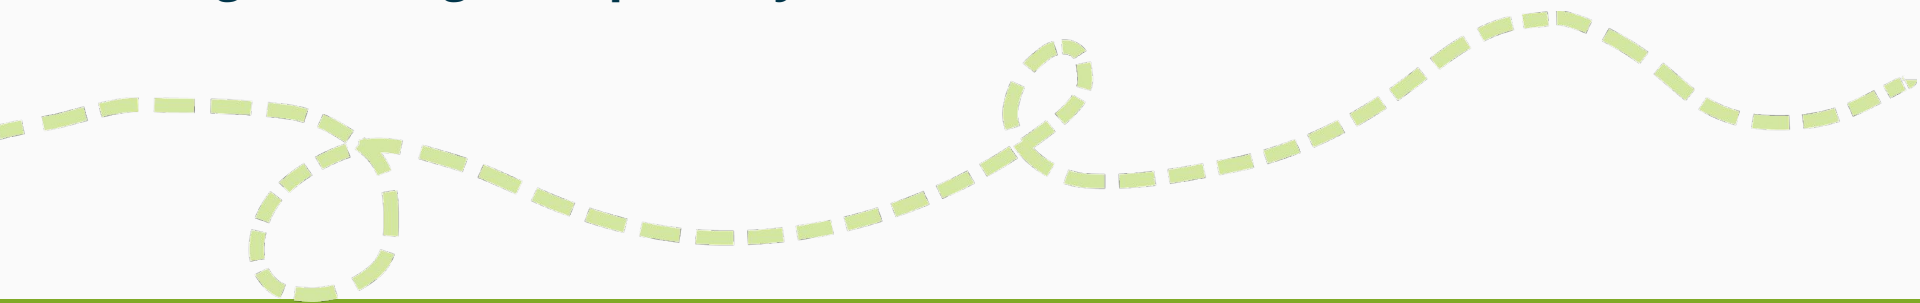

- Established in 2015, led by Jisc
- After the Jisc ARMA ORCID Pilot to streamline ORCID implementation at (8) HEIs the consortium was launched to federate benefits of ORCID adoption
- UKRI OA Policy requires iDs for contributors to be supported in repository and publishing systems
- UK ORCID consortium cost benefit analysis: total saving (>8Y) is estimated to be £4M

# Join us!

The research community in Czech Republic has the power to improve the value and **openness** of research information.

Unique researcher identifiers have the potential to streamline information sharing and bring **transparency** to the creation and re-use of that information.

# Thank you for your attention
