How a Scientific Database can benefit from ORCID?
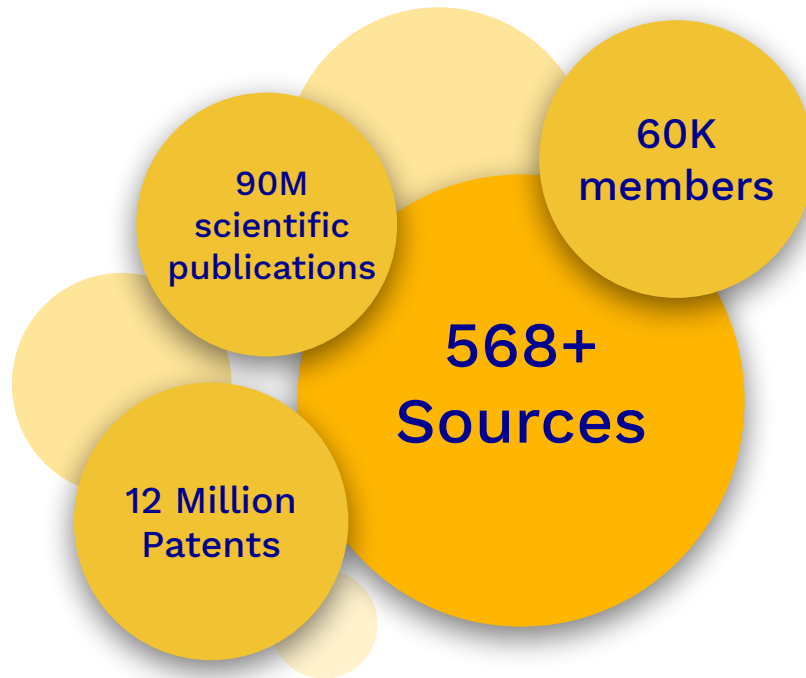

Who is *MyScienceWork*?

Our Idea? Democratize science

Free **discovery tool & promotion platform** for scientists and research professionals

90M scientific publications

60K members

568+ Sources

12 Million Patents

Our Idea? Data expertise

Polaris OS

Data oriented solution for **digital** asset management system and **analytics**

SIRIS

Innovative **monitoring solution** for **research assessment**

Linking MyScienceWork accounts with ORCID ID

Allow researchers **to attach their research** to their personal profile: patents, videos, abstracts, etc...

Also MSW suggest the member to **create an ORCID ID**

Interoperability help to structure research ecosystem, in that case all researchers profiles

Linking MyScienceWork accounts with ORCID ID

What are the benefits for ORCID community ?

1. **Data control**: Researchers can control which information will be loaded from the ORCID iD

2. **Recurring update**: Members can choose the frequency of bots will load automatically new publications in MyScienceWork database using the ORCID iD

3. **Dissemination**: increase the content visibility in order to improve the dissemination rate = Long term benefit

What are the benefits for MSW?

As for the community :

1. Data control : **Quality of the content / database**

2. Recurring update : **no delay** to get the new contents

More specifically for MSW:

3. Authors **desambiguation**

4. **User friendly** Platform

We ❤
ORCiD
Connecting Research
and Researchers

Thanks!
