Milestones

ORCID Austria

WAS IST ORCID?

Webinars, workshops, blogs

Joint statement of principles, by **2021**:

1. Double the number of AT iDs
2. All AT iDs connected w/ outputs from last 10 years
3. AT ministries & funders should use ORCID data
to evaluate & report on inst research performance

4 integrations: **Pure** (3), custom RIM system (1)

💡 Roadmap

Upcoming integrations:

Repositories: Dspace, Eprints, Fedora, Dataverse

Publishing systems: OJS, Janeway

Funder: ResearchFish

26. November 2015

FWF mandates ORCID for applications as of 2016

As announced in December 2014, the Austrian Science Fund FWF will mandate the use of an Open Researcher and Contributor ID (ORCID) as part of its grant application process. Starting from January 1st 2016 all scholars are asked to have an unique ORCID identifier, register requires only one minute at ⊙ orcid.org.

Triplement du nombre d'affiliés à ORCID en France en un an #JNSO2019
💬   ⟲ 4   ♡ 8   ⬆️

Integrations with

- HAL: open archive provides idHAL and a CV
- HumaNum: A digital service infrastructure to store and disseminate HSS research data & documents. Provides a platform and HSS search engine
- IdRef national database of authority records for French HE & research libraries

🇩🇪 # Germany

Milestones

Lead org & project partners

58 members

Authors can claim & import works to their ORCID records (currently 130K+)

Authors can claim & import their works (books, dissertations, patents, technical standards, etc.) from the DNB catalogue & the Integrated Authority File (GND) to their ORCID records
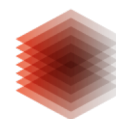

Positionspapier on author identification & ORCID (2800+ views)
https://doi.org/10.18452/19528

Elan is the DFG's proposal processing system for applicants, reviewers and committee members. Collects and displays iDs.

💡 Roadmap

ORCID-Monitor: a tool (UI & API!) to analyze the use of ORCID data in BASE, repositories & other platforms

Allow claiming from titles within the DACH region & enable synchronization between ORCID & GND

Needs assessment on the current status & use of org identifiers in German institutions

🇮🇱 Israel

Hebrew
Arabic
English

MARTIN LUTHER KING st.

Milestones

ORCID as an essential infrastructure for their national CRIS network

Members integrating ORCID and their institutional ERP system, some integrations are actually built into the ERP (Oracle), and some use an intermediate mechanism (web server & a database)

All integrations add affiliation data (org ID, start date, department) & keywords

💡 Roadmap

Pure as the CRIS provider for all universities

Aggregated Pure instance to disseminate Israeli research

All systems will support Arabic, English and Hebrew

عربيه עברית English

Popular Terms   Scientific Terms

Hebrew Arabic   English

Public Facing Portal   Supernova
                                 Corrosion
                                 Mass Spectrometry
                                 Mindfulness

                                 Academic Research Portal
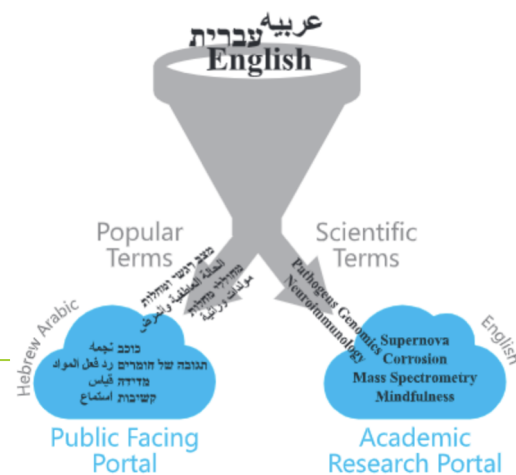

🇬🇧 UK

Lead org: **Jisc**

98 members

Evolving PID landscape

💡 Roadmap

National work at the funder & institutional levels
International collaboration at the infrastructural & platform levels
- Consultation and landscape analysis
- Consistent PID adoption, integration & coverage

UKRI OA Policy consultation: standards for journals & OA publishing platforms: "the use of ORCID to identify all authors and contributors"

Advocacy & support
- UK PID Consortium
- Engage funders
- Communicate benefits
- International liaison

Governance engagement
- Advocate use of open source and data
- Support nascent developements
- Active engagement

Targeted interventions
- Create integrations
- Long-term policies
- Interaction points
- Support for smaller entities
- Sustainability task force

Benefit analysis
- Monitor and evaluate
- Commuicate evidence

Bonus track:
🇮🇪 **Ireland**

"Murphy is the commonest name in Ireland / ORCID gives you a chance to be a Murphy with a unique number" – Gareth Murphy of @essneutron at #PIDapalooza19
