ORCiD | Connecting Research and Researchers

ORCID.org

Takeaways

After this session, you should:

1. Understand what ORCID is and how it can benefit you

2. Have your own ORCID iD and know how to populate data in your ORCID record

3. Recognize the benefits of connecting ORCID iDs with other researcher identifiers and organizations

ORCID'S VISION IS A WORLD WHERE ALL WHO PARTICIPATE IN RESEARCH, SCHOLARSHIP, AND INNOVATION ARE UNIQUELY IDENTIFIED AND CONNECTED TO THEIR CONTRIBUTIONS AND AFFILIATIONS ACROSS TIME, DISCIPLINES, AND BORDERS.

What the Research Community Wants

- Research information is openly available
- Researchers are accurately credited for their contributions
- Organizations are accurately cited
- Accurate search and discovery tools are available
- Researchers can easily share electronic information about their contributions and affiliations

An Open Research Infrastructure

Persistent Identifiers support a trustworthy research infrastructure

The Value of Identifiers

Persistent identifiers for

people

places and

things

are a foundational element in anchoring and referencing research information in a trusted and interoperable way.

WHAT IS ORCID?

A globally unique and open identifier for researchers

Researchers share their iD with organizations during regular research workflows

A place to store and share the resulting connections between iDs and research activities and affiliations

https://orcid.org

ORCID = Open Research & Contributor Identifier

- **Persistent Identifier**:
   http://orcid.org./0000-0002-2771-9344

- Changes in:
  - Name?
  - Career?
  - Location?
  - Discipline?

- Your **ORCID iD** stays the same! (It's persistent)

What is ORCID?

A globally unique and open identifier for researchers

A set of standard procedures (APIs) for connecting researchers to their affiliations and activities

A place to store and share the resulting connections between iDs and research activities and affiliations

https://orcid.org

ORCID Members (Organizations) can use ORCID's API to invite researchers to share ORCID iDs via Oauth authentication.

ORCID Members can collect information from ORCID and to connect research activities to researchers' ORCID records.

Trusted Organizations

Use and Connect Your ORCID iDs

How researchers and organizations can benefit from ORCID

Good start, but we want more

- Through linkages with other systems, ORCID improves discoverability and reduces repetitive data entry.

How researchers can start

USE ORCID

ADD INFORMATION
TO ORCID RECORD

Use ORCID

- Connecting ORCID iDs with platforms during any research workflow and authorizes them to add & update information to your ORCID records
  - In publishing
  - Depositing data
  - Submit grant application

Use ORCID in publishing

- During journal article submission

Use ORCID depositing data

- During data deposit workflow – Dspace repository

ORCID at KAUST

KAUST uses ORCID identifiers to identify researchers and their research. Select from the options below before connecting to the ORCID system.

☑ Create a new ORCID ID or identify an existing one (required).
☑ **Read information from my ORCID record.**
☑ **Add KAUST affiliation to my ORCID record.**
☑ **Add publications from the KAUST Repository to my ORCID record.**

You can change these permissions at any time in the Accounts Settings section of your ORCID record.

Enable time-savings for researchers, preserve metadata quality, and support transparency and trust in research information

Researcher
- Connects ORCID iD to manuscript / dataset
- Connects ORCID iD to DataCite ,JaLC profile, enables auto-update

Publisher / Data Centre
Embeds ORCID iDs in metadata when manuscript/datas et is accepted, noting if iD is authenticated

Checks metadata for authenticated ORCID iDs when assigning DOIs to new works

Receives new work info from Crossref/DataCite, ,JaLC sends to users' ORCID records

To Recap

INSTITUTIONS

- Save time and reduce errors with automated information-sharing and cross-system interoperability

- Manage your organization name and your researchers' connections with it

- Maintain links with your researchers - past, present, and future

RESEARCHERS

- Improve recognition and discoverability of their research

- Spend more time doing research, less time managing it

- Control and manage a trusted and easily shareable record of their research activities and affiliations – for free
